BI! BI!

Game Description

The North Sea abounds with many kinds of monstrous fishes which are from a secret hole. None knows the mystical fishes-appearing source. A brave diver would like to explore the deep sea. He chooses a fine day and prepares many kinds of useful explorers for this adventure. He has sixty-minute oxygen to breath after diving into water. In the dangerous sea, there are sharks, octopa and globefishes to attack the divers, so he should use his squirt gun to shoot these fishes quickly before they eat him up. Your mission is to shoot up the monstrous fishes. You have four opportunities. That you do remember is each time of diving into water only have sixty minutes to take up.

Preparation Steps

Step 1: Check to be sure that the Video Computer System is connected to the TV, the power supply is plugged in, and a controller is plugged into the left jack at the rear of the Video Computer

System.

Step 2: Insert a game Cartridge and then turn on the switch. (Caution: the switch should be turned off at all times when there is no cartridge in the console.)

Step 3: Select the game with the Game Select Switch and start the game by switching the Game Reset Switch.

Using the Controller

As you control the joystick up, down, right and left, your diver moves up, down, right and left. Press the red button and the squirt gun is shot out.
